Executive Summary

Alpine School District

Lindon UT 84042

To Whom it May Concern:

The Public Group, LLC, is pleased to respond to the request for proposal from the Alpine School District for Online Auction Services and offer our solution to the challenges currently faced by your agency. We understand that the agency desires a response in providing Internet based surplus auction sales of excess School District inventory.

The Public Group offers an acclaimed online auction application, Public Surplus, which will allow the agency to enjoy significant returns from the sale of excess property while minimizing associated costs. This application is designed to meet the unique needs of government agencies. Public Surplus is the most comprehensive and easy-to-use online auction service available.

The online auction application, Public Surplus, for the disposition of surplus property currently makes its services available to any government agency in the State of Utah. We currently have over 150 clients in the State registered to use our system, including 44 school districts.

We have a proven record of providing online auction services to over 4,500 agencies including state entities, cities, counties, public utilities, and school districts. This includes numerous contracts in place in which the optional extensions have been executed until they were exhausted and required to go out to bid.

We focus on doing business with clients that are innovative and see the benefit of using online auctions from an economic and staffing standpoint. Our dedicated sales and support staff attend government trade shows and discuss our services and the benefit of online auctions via telephone with government clients. We do not expand our sales business beyond that which our support staff can handle. Our growth comes from providing the best customer support in the industry. Many of our new clients are word of mouth referrals that come to us from other users of our system. As the nation continues to adopt online practices for bidding and auction processes, The Public Group will continue to be the leader in the industry assisting agencies every step of the way.

The Public Group’s online auction application, Public Surplus, is completely web-driven. The only requirement the agency will need to manage for conducting an auction is to supply digital pictures of the items to be sold and upload them via a web browser. The Public Group will supply a dedicated customer support representative to provide onsite assistance with the loading of assets to the auction site if the agency requires assistance.

There is no software to install or maintain, and The Public Group takes full responsibility in keeping the auction site up and running 24 hours a day, 7 days a week, 365 days per year. The Public Group's staff assigned to your account will be available for consultation with site staff on an as-needed basis between 6:00 AM and 6:00 PM, Mountain (MT) Monday through Friday.
The Public Group has over fifteen (15) years of experience in the online auction business and extensive knowledge of how to use diverse advertising media in potential markets to attract bidders who are seeking the type of surplus property the agency has for sale. Providing first class customer service is the goal of The Public Group.

The Public Group will provide all training, manuals and on-site/online sessions the agency requires in order to be comfortable using our system. There will not be any additional charges for training and setting up of the system. The Public Group will also provide dedicated customer support representatives to assist with any additional training and assistance needed throughout the entire usage of Public Surplus.

We provide in-person system training, webinars, online chat, as well as dedicated support representatives to assist with all the agency’s needs. Agencies also have access to our online Help section, where there are detailed instructions for how to create and manage auctions.

Our expert team is ready to assist the agency with a wide variety of marketing methods. The Public Group has found that there are several successful ways to increase the revenue and visibility of auctions, in addition to the customary advertisements in periodicals, newspapers and trade publications. Our buyer contact team has spent more than 15 years researching and developing the largest qualified buyer database for government agencies. The Alpine School District will benefit directly from this team calling on its valuable auctions to increase revenue where it is needed the most.

Our system provides a detailed audit record of all activity which allows for reallocation of surplus items internally and provides online auctioning for those items that are not internally reallocated.

The Public Group has created a tool that analyzes various metrics, i.e., names, addresses, phone numbers, etc., and sends an alert to our fraud department to evaluate the threat potential and minimize said threat. In addition to our threat protection, the seller has the ability to block any buyer they deem a threat from their criteria, to prevent them from bidding on their auctions. We use address verification with credit cards and bid deposits which greatly reduces the number of default bidders since the buyer will lose their bid deposit if they do not complete the purchase of an auction they won.

This proposal is in all respects fair and in good faith without collusion or fraud and that the signer of the proposal, Zackary Corbett has the authority to bind the principal proponent.

Detailed Response

The Supplier shall provide a full process of an online auction service.

1. Use of auction site must be easily accessible and easy to use.

From our years of experience we have the majority of our clients inform us that our website is easier to use then most of our competitors out there. We have online chat buttons, online help tabs and question mark boxes that will inform a user how to use our system. We also have dedicated customer support representatives that can assist with anything needed. As the School District has been a user of our website for over 15 year I'm sure many of the current employees using the software can attest to the ease of use.

2. The Supplier shall provide multiple methods for collection of payments (Supplier accept payment and reimburse Participating District; Direct payment collection by Participating District, etc)

The School District can collect payment directly from the buyer using whatever collection method they prefer. The School District can also have the buyer pay the buyer’s premium directly to them and then forward it to Public Surplus or the School District can pay the fee directly.

We do offer our payment collection service through Payment Processing that will handle all collecting of payments from buyers on behalf of the School District. We do accept Pay Pal, wire transfer and credit card payments if the School District chooses to utilize this service. Please see our cost proposal for additional information.

3. The Supplier will provide all hardware, software, servers along with any/all maintenance and upgrades needed to operate the online auction service.

Public Surplus, our system is fully compatible with Windows and Apple products. Our system also does not require any installation or special software. It can be accessed on our website on any computer device by going to www.publicsurplus.com with any Internet browser. Our system is also fully functional with any mobile device such as a tablet or smart phone. We do not require any connection with the School District and the School District will be able to access our website through any common web browser.

4. All internet connectivity shall be accessible through industry standard connections, web browsers, and email.

Users are able to access our website with any standard internet connection and web browser such as Chrome, Firefox or Internet Explorer. Users can also access our website on tablets and
phones with internet connection. We have our own built in e-mail system that will allow the School District to send and receive e-mails from buyers directly through our website.

5. Supplier shall provide all security systems, anti-virus and firewalls capable of preventing the hacking of any auction information from the auction servers.

We provide all security measures on behalf of the school district and can provide the school district with PCI compliance and other documentation to show this if the school district requires.

6. Supplier shall provide fraud protection/prevention capability.

We have a buyer support team dedicated to monitoring our buyers. We have fraud protection in place that requires the buyer’s credit card information to match the address and contact information on their account as well as their phone number and e-mail address. If we collect payment for the school district we will provide all payment dispute assistance and fraud prevention services on our website.

7. The system shall allow ASD and the participating districts to post their own item information, photos, Terms & Conditions and special instructions via a common internet browser.

The school district will have full access to upload any information they want to specifically for their agency and our system is a permission based system that will allow administrators to decide what other employees are able to upload and edit on the website.

8. The successful Supplier will be required to meet or exceed bid specifications and vendor requirements for the Alpine School District.

We feel we meet all the specifications that the school district is looking for and would be happy to do an in person presentation to answer any additional questions the school district may have if needed.

9. Alpine School District must be notified 48 hours prior to scheduled system maintenance that may affect access to the online auction process.

Anytime maintenance is to be performed on our website we do it over the weekend and will have a statement at the top of the website at least 48 hours in advance to notify our clients of the maintenance and downtimes. The only time this may change is in the rare circumstance of an urgent update in which case we will update the website as quickly and efficiently as possible as to not hinder any activity on the website for the school district.

10. Additional Items:

A. Billing and Financial Reporting

The Public Group provides standard reports that meet the School District’s criteria as
well as customizable reports that allow the School District to select specific criteria for each report. Our reports are specifically designed to assist with audit and transparency standards that Government agencies require. We can develop specialized reports with set criteria if needed. Our system currently has the 9 standard reports that the School District will have access to. These reports can be downloaded into a PDF or Excel file and any user with the correct permission will be able to see the reports.

9 Standard reports the School District will be able to access:

Closed Auction Report
Customizable Sold Auction Report
Auction Payment Report
Reallocation Report
Bid Activity Report
Coop Revenue Report
Sold and Paid Report
Payment Collection Account
Payment Collection Report

Please see our confidential pages information for viewing an example of these reports.

B. Bidding Process

Our system makes the purchasing process as easy as possible for bidders. We have a dedicated Buyer support team that is available via e-mail, chat or our 1-800 number if needed. We assist buyers with payment and navigating the website with whatever they need.

We also make the bidding process as easy as possible for buyers and allow buyers to place proxy bids on items. Proxy bids are when you place the maximum amount that you are willing to pay for an auction and Public Surplus automatically increases the amount of a buyer's initial bid for them in set increments. For example: a TV is being sold that a buyer would like to bid on; it's currently listed at $60.00 with an increment level of $5.00; the buyer doesn't want to pay more than $100.00. The proxy bid will set their first bid at $65.00 so that they are the winning bidder. If another bid is made for $70.00, the proxy bid will automatically increase the bidder's bid amount to $75.00. It will continue doing this until it reaches the bidder's maximum bid amount of $100.00. Proxy bids are very useful for when a bidder doesn't want to have to watch an auction to verify their bidding status.

Our system will notify buyer's via e-mail if their bid has been rejected or if they have been outbid and they will be able to place a new bid if they wish. We will notify buyer
via e-mail if they win the item and were awarded the sale. We will also send each winning bidder the payment and delivery instructions after the auction ends so they know exactly what is expected and needed in order to purchase the item from the School District. the School District will have full control of what this e-mail says to buyers.

C. Customer Support

The Alpine School District will be assigned 3 customer support representatives to their account and these representatives will be available by work phone from 8 AM – 8 PM ET Monday – Friday excluding major national holidays (New Years Day, Christmas Day, Thanksgiving, Memorial Day, Labor Day, etc). the School District will also have access to their representatives cell phone numbers during off hours. The Public Group ALSO provides e-mail and chat support for all users of our website during those time. The Public Group also provides maintenance and upgrades to the hardware and software that the system needs.

D. Online Auction Process

Our system is a permission based system that allows the School District administrators to manually select the permissions and controls that each user in the system is able to access and navigate. The School District will be able to specify who is administrators on the website and who has the ability to create/release auctions. Once the School District begins using our system we will help them create their users with the needed access and then they can begin creating auctions.

Our online system is designed for ease of use when it comes to auction creation. Users are able to use an excel upload file to create a lot of auctions or can manually create them 1 by 1 with our standard form. Once the auctions are live we have easy to use features that give the School District the ability to revise existing listings, copy existing listings for creation of new listings, and the ability to retract or end listings. All of these features are readily accessible from the seller user menu.

The Public Group understands that the School District will exclusively determine the items and equipment available for surplus. The School District will have the utmost flexibility in how the listings may be conducted. The following functionality is included in our solution:

I. Ability to have multiple line items per lot (ie. Computers);
ii. Ability to have one asset per listing (i.e. vehicles);
III. Ability to have dutch auctions (i.e. same item and condition but multiple
quantities and multiple bidders can purchase one or many.

Our system is built specifically for government agencies and we have the ability for agencies to add their own inventory categories they want on each item. These fields are customizable and can be tracked and reported. We are able to customize whatever information for tracking purposes that the School District would need.

Please select the condition of the item.

Pick-up Location

Chicago Transit Authority
567 West Lake St.
Chicago, IL 60661 - US

After the School District inputs the information they want in the auction creation page it will go to a "Held" section that will allow any School District users with the correct permissions to view and release the items for sale. While the auctions are out for sale the School District will be able to view who is bidding on the item, the number of bids and the current price the bidding is out. The auction page will also show all contact information for the School District employees responsible for the auction. The School District will also be able to place any additional information about the item that they would like in this section such as payment and pickup procedures. Below is an example of this page.
Once an item is released for sale our system allows any user to search for auctions on our website using our search feature. Users that are on the website will be able to search for current auctions as well as closed auctions. Buyers are able to search for items by a specific region and/or specific agency. Below is an example of using this search feature for past auction data.

During the duration of the auction buyers are able to access the auction page and ask questions they may have pertaining to the auction. The user that created the auction will then be notified of the question and be able to answer it via e-mail and/or on the website. The user will be able to review the question and approve or deny it before responding and providing an answer.

When a buyer goes to bid on an auction they will have to agree to the terms and conditions that the School District is able to create and edit. When a buyer goes to bid on these items they must agree to the terms, which works as an electronic signature agreeing to whatever specifications the agency has set forth. Below is an example of an agreement page.
Once an auction ends, our system automatically sends a winning notification and payment notification to the buyers after payment has been made. The School District will be able to customize the information e-mailed to the buyers. The School District also has the ability to manually send notifications through our e-mail system within our website.

These winning bidder notifications go out automatically after each auction is ended. The winning bidder and School District will both receive the e-mail notification. The School District is able to customize the information they want within this winning notification. The School District is also able to manually send this information to the winning bidder or second bidder if they want to offer the item to them through our system.
You can view any auctions that ended on our closed auction tab which will show all auctions that closed, the price they ended for bid and who the winning bidder was. The main closing page on an auction looks like the following:

Once the auction closes the buyer has 5 business days to pay for their item and then 5 days from payment to pickup the item. The School District can negotiate these terms with the buyer if they so desire. If the School District has any issues with buyers then the School District will have the ability to block or otherwise decline bidders/buyers whom have defaulted on previous School District or any other government agencies auctions. Additionally, Public Surplus can block or otherwise restrict buyers on a per case basis.

Ability to activate an “Auto Extension of the auction time” option

Our system was the first online auction system to offer an auto extension feature. If a bid is placed during the final 5 minutes of an auction, the end time will automatically extend for an additional 5 minutes. This will continue until no bids are placed during the last five minutes.
This is much like a live auction: When the auctioneer is concluding the sale of an item, a person might make a bid at the last moment. The auctioneer then asks if anyone else would like to make a higher bid, essentially extending the auction until everyone has had a chance to make their final bid on the item.

Most online auctions are bid on during the final minutes. This option allows everyone a fair chance to bid until no more bids are placed.

E. Role of Users

Qualifications/Experience

We feel that the best way to share our experience is to have examples and testimonials of agencies that have used our system. Below is numerous examples and agencies that have provided this information.

Our first example -
TPG has assisted an agency in turning a regular expense into a new stream of revenue as documented in the email below:

Testimonial: NYC Director of Bridge Painting

With the advent of the online auction process, even some of the most un-sellable items are able to be advertised and marketed to a much, bigger set of potential end users. As such, New York School District DOT would like to share with you their 100% positive experiences in the very short time that they have been using the online auction process to market and sell excess/unwanted inventory. Specifically NYCDOT would like to focus on the various paints, which they have been able to market and sell to the general public. Recently NYCDOT was able to sell, via online auction approximately 800, 5 gallon buckets of paint, generating an income to the School District of approximately $20,000. Without Public Surplus, disposal of this paint would have taken the traditional route of transferring it into 55 gallon drums and then paying an environmental subcontractor $220 per drum to cart away and legally dispose of the paint. This would have been $16,060. By my math, this results in a net savings to the School District of $20,000 + $16,060 = $16,060 + all of the man hours saved to transfer the paint into the drums and then cart away the empty buckets via dump truck to a transfer station, easily another $5000.

NYDOT usually does not make it a policy to endorse any particular outside vendor or company, but in this case we feel compelled to break our rules and go out of my way to praise The Public Group and their outstanding customer support representatives. Their company is full of talented self-starters and conduct themselves with the highest level of professionalism and customer-focused service attitude. NYDOT is very pleased to be using The Public Group and will continue to use it wherever possible as we know they are the best avenue for disposing of surplus in a timely, profitable manner.

-Director of Bridge Painting, NYC, Ron Rauch
Our second testimonial demonstrates our ability to dispose of items that are specific to the School District’s and the scope of our buyers’ base.

**Testimonial:** Metropolitan Atlanta Rapid Transit Authority (MARTA)

We have been using Public Surplus for more than 3 years. MARTA has sold over 200 buses, 12 retired police cars, and over 100 Auctions for surplus and obsolete equipment in the past year on Public Surplus, obtaining bids from Alabama to Portland, Oregon. The ability to obtain as many as 25 bids for our obsolete and surplus equipment maximizes the revenue we make versus local auction houses alone and we are completely satisfied with the service.

Roger Mahler
Purchasing Manager
Metropolitan Atlanta Rapid Transit Authority

Our third example - TPG has assisted an agency in disposing of an item for more than the price the same item was being sold for:

**Testimonial:** Oldham School District, TX

Oldham School District is located in the beautiful, high plains of the Texas panhandle. In the past year the Sheriff’s department had the good fortune of discovering Public Surplus at the annual Texas Sheriff’s Convention. After investigating Public Surplus, how they work and the great things they have done for other agencies we decided the smartest thing we could do was join up and give Public Surplus a try. The School District had a group of seized vehicles that in the past they would sell at a local auction. This time we decided to try to power of Public Surplus and we where not disappointed. Over the next couple months we auctioned off vehicles that had been sitting around for years. After seeing what Public Surplus could do we were able to come to the conclusion that online auctions is the way to go and we have seen considerable revenue growth compared to our local live auction of the past. One vehicle of note was a motor home that you could find the same year, make and model for sale on the Internet for $12,995.00, with Public Surplus it went for over $17,000! This made even more money for the Sheriff’s department. Overall we are very satisfied and look forward to using and making more money in the future with Public Surplus.
Our fourth testimonial states the significant increase in revenue since utilizing our Public Surplus application.

Testimonial: School District of Albuquerque, NM

To whom it may concern:

Public Surplus has been our web-based auction since 2007. Since then, our revenue has increased about $400,000 to 500,000 a year. Customer service has been excellent in regards to reports, reconciling and customer communication. The program is simple and user friendly. It is easy to use all around and is an enjoyable auction website. We would definitely recommend it to all Government surplus based companies and entities.

Our fifth testimonial shows the effectiveness of our training, customer service, and increases revenue and is from the School District of Mesa.

Brief Description of Scope of Services:
Utah County has been using Public Surplus for over 8 years and they sell all their equipment through our website. They utilize our internal reallocation feature as well as our departments feature. They actually have the ability to use different island accounts through our system that allows them to post items for one department but receive separate checks and account configurations based on the agency's preference. For instance, the fleet department has Public Surplus collect payment and remit it on a net7 cycle while the warehouse department has the payments collected on a net30 cycle. The School District posts all items on their website and is working with other agencies to bring items to their facility to sell if needed.

This agency utilizes many services we offer including our auction technician service at times. We have a dedicated representative that can make on site visits to the agency's location to gather pictures and descriptions of items the agency needs to sell. Once the technician has the information they help create the auction listings for the agency. This agency also has the option to use our internal reallocation system. By offering surplus items to other departments within their organization prior to the auctions being listed for public sale, the School District is able to reduce their purchasing budgets. This allows them to redistribute the items to other School District departments free of charge before it goes out for public bid. Using this process, the agency has been able to reallocate thousands of items and save the taxpayers thousands of dollars.

**Brief Description of Scope of Services:**

This agency has been using us for over 3 years and have had us provided on site trainings for them for different staff members that have needed the learning as new contacts have come into place. They use us to sell all of their items including vehicles, heavy equipment and small items.
Cost Proposal

Public Surplus can be paid by the agency or in the form of Buyer’s Premium for the use of our application. A Buyer’s Premium is a set percentage that is in addition to the winning bid; this amount is in addition to any applicable taxes and charges. The Buyer’s Premium is listed as a separate line item from the winning bid amount. Any applicable fees such as taxes are totaled and charged to the Buyer.

All auctions clearly state and explain the Buyer’s Premium for all Bidders (if the School District elects to have one), along with the methods acceptable for payment. Winning bidders also receive this information via email once the buyer has won the auction. If an item listed by the School District is not successfully won, The Public Group does not collect a fee. We feel strongly about our application, we do not charge additional fees found by other online auction sites.
We also do not charge any setup or startup costs. Some of these fees, which we do not charge for, includes:

- Re-Listing fees
- Uploading fees for:
  - Photos
  - Manuals
  - Item supporting documentation
  - Warranty information
- Internal re-allocation fee
- Targeted marketing
- Email blasts
- Contacting specialty buyers
- Record Storage fees
- Integration into the agency’s website

Our fee breakdown service is as follows:

5.5% Auction Selling Fee – Our service is completely free for the school district as you will not pay us anything directly. Our standard fee is 7% and the buyer would pay this fee in the form of a buyer’s premium. **We offer the school district buyer's a discounted rate of 1.5% which would bring the buyer's premium to a total of 5.5%**.

Example: If the item sells for $100 and the School District charges a buyer's premium the School District will receive $100. The buyer will pay $105.50 and Public Surplus will receive $5.50 from the buyer.
If the School District elects to pay the fee then in the scenario above the buyer would pay $100, the School District would receive $94.50 and Public Surplus would receive $5.50.
This fee can also be reduced if a volume-pricing discount is applied.
Any agency joining this contract would be on our standard rate of 7% auction selling fee.

3% Payment Collection Fee (Optional through Public Processing) – This additional fee is applied if the School District decides to have Public Surplus collect payment from the buyer's. Public Surplus uses Public Processing to collect payments from the buyer and will allow the buyer to pay via credit card or wire transfer. This 3% fee is paid by the buyer on top of the sale price. For example, if an items sells for $100 the School District will receive $100 and the buyer will pay $108.50 which will pay

The Public Group.

Alpine School District – RFP for Auction Services
$8.50 to Public Surplus/Public Processing.

**Billing and Payment Remittance Cycles**

This section is only applicable if the School District decides to have Public Surplus collect payment directly from the buyer.

Under our payment collection service, Public Processing, LLC accepts payments directly from buyers and remits net proceeds to the government agency via ACH transfer. Payment remittance to agencies is based on set billing cycles and subject to the terms of the Public Processing, LLC Agreement for Payment Processing.

**Standard Billing Cycle (Net 30)**
The Standard Billing Cycle is 30 days. This billing cycle starts on the 1st of the month that begins after Public Processing, LLC has received payment. Payment is remitted during the first week of the month following the end of the billing cycle. For example:

Auction closes on August 10th and payment is received on August 15th.
Billing cycle will begin on September 1st and will end on September 30th.
Public Processing will remit payment via ACH transfer to the agency during the first week of October.

**Expedited Billing Cycle (Weekly ACH Transfer)**
The Expedited Billing Cycle is offered to agencies that need to receive payment on an expedited schedule. Under the Expedited Billing Cycle, Public Processing, LLC will remit payment via ACH transfer to the agency on a weekly schedule. Agencies who elect to implement the Expedited Billing Cycle will pay an additional fee of 1%, bringing the total fee to 4% of the winning bid price. This can be passed on to buyers in the form of a buyer premium.

This weekly billing cycle starts on Sunday, and includes all items that are **paid for** in the previous week. A week is defined as Sunday through Saturday. Payment is remitted on the second Tuesday following the beginning of the billing cycle. It can take up to 48 hours for funds to be credited to the agency’s account. For Example:

*Sunday, January 1st - Saturday, January 7th*
Any item that is **paid for** within the week will be included in the January 8th billing cycle. Payment will be remitted via ACH transfer on Tuesday, January 17th and may not reach the agency’s account until Thursday, January 19th.

*Sunday, January 8th - Saturday, January 14th*
Any item that is **paid for** within the week will have an ACH payment transfer sent on Tuesday, January 24th, and may not reach the agency's account until Thursday January 26th.
MISCELLANEOUS OPTIONS

Discounted Rates – If the agency sells over $1,000,000 worth of items within a year, the auction selling fee will be discounted by 0.25% on the next year of auctions. For every $1,000,000 the agency sells there is an additional 0.25% discount.

Also, on large ticket, single sell items that have a value over $200,000 we can offer a flat buyer's premium of 5% + collection fees if applicable (3%).

Price Match Guarantee
The Public Group's online model is especially designed to maximize sales for government agencies while reducing operating costs for both the agency and The Public Group. Our agencies benefit immediately by receiving some of the most aggressive pricing in the market. We are so confident of our model and savings for government agencies that we will NOT be beat on price for similar services. If the School District finds similar services at a lower cost than the The Public Group's quote, we will beat the lower price in the amount of 0.25%.

Auction Technician Service Option
We offer an auction technician service to create auctions on behalf of the School District. This service would be provided by our Utah Auction Technician. They will be able to come on location once a month for the School District and post auctions for as many items as the School District needs posted.

Auction Tech Services to include:

1. Taking photographs of items
2. Surplus item description writing
3. Uploading information on each listing
4. Creating auction listings
5. Releasing auction listings upon approval

If the School District does need this service more often then once a month we can negotiate on pricing depending on the items being sold but this fee will not exceed 4%.

Marketing Plan #1 – City of New York Barges – Marketing Team

New York City contacted us in March of 2014 as they needed to sell some hopper barges on our website. They did not have a market for these types of items and were not sure which type of buyers or companies would be interested in purchasing these types of items.

We had our marketing team begin to do research on these items and in turn reach out to the type of companies that would purchase these items. We made many phone calls and e-mails on the behalf of the City to different companies we found that may be interested in these types of items. After a month of diligent marketing we were able to sell all four hopper barges for over $1,000,000 total. The City of New York was extremely pleased with this marketing technique and this is something we offer all of our agencies as they post vehicles and heavy equipment on our website. We will do all research and buyer contacting for you.

Alpine School District – RFP for Auction Services
Marketing Plan #2 -- Interest List -- Madison County, MT

This agency had concerns about going to online auctions from a local auction company. They were concerned that we wouldn't be able to bring buyers to their auctions as they are in remote Montana. We informed them that as part of our marketing buyers create an interest list when they sign up on our website. This interest allows buyers to select the region and type of items they would like to purchase on the website.

Once an agency creates an auction that meets the criteria the buyer has set they will receive an automatic e-mail notification once a day showing them the items posted in their region. This County decided to post an excavator with us, and our interest list was able to pull many buyers in their region to the auction that they were not aware of. Ultimately the excavator sold for over $45,000, which was $20,000 more than they were hoping to receive.
Marketing Plan #3 – Rock and Dirt Ad

Below is an example of a recent rock and dirt advertisement we had in the national trade magazine. We do these advertisements periodically and include a list of agencies that are selling heavy equipment for buyers to go and look at. This specific rock and dirt advertisement came out during the same time that the State of Alaska needed to sell some graders and loaders. Due to the traffic obtained on these auctions during that time the State was able to receive a considerable amount more revenue than they expected.
We will be glad to share, in more detail, additional marketing methods and strategies with the School District if we are considered for award. We deem these methods to be confidential and therefore leave them out as not to give our competition a leg up in this competitive marketplace. We can assure the School District that with The Public Group’s over 15 years experience and our proven track record of success ensures that we continually get top dollar for our clients. We look forward to sharing in more detail our proven marketing methods of success.

PUBLIC SURPLUS DOES NOT WARRANT THAT THE SERVICES, FUNCTIONS, FEATURES OR CONTENT WILL BE FUNCTIONAL, TIMELY, SECURE, UNINTERRUPTED OR ERROR FREE, OR THAT DEFECTS WILL BE CORRECTED. The inclusion of any link on the Site does not imply that Public Surplus endorses the linked site. You use the links at Your own risk.

4.5. Release. If You have a dispute with a Buyer or any other Seller or user of our Site, You release Us
(and our officers, directors, agents, subsidiaries, joint ventures and employees) from claims, demands and damages (actual and consequential) of every kind and nature, known and unknown, arising out of or in any way connected with such disputes. You will settle all disputes with other users of our Site without our involvement, and We will have no liability whatsoever arising from communications made or transactions effected through our Site. If You are a California resident, You waive California Civil Code Â§1542, which says: "A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor."

1.7. User Password. During the registration process, You will select a username and a password. You agree that You are solely responsible for preserving the confidentiality of Your username and Your password, and You will be responsible for all activities and charges related to the use of Your username and password, including unauthorized use. You agree that You will take all steps necessary to ensure that Your employees, contractors, and agents comply with the covenants, terms and provisions of this Agreement, including but not limited to the covenants contained in sections 1.6 and 7.8 of this Agreement. You acknowledge that You will be responsible and liable for any damages,

2. SELLER UNDERSTANDINGS AND OBLIGATIONS

In listing or offering items for sale on the Site or otherwise accessing the Site and Services in any way, You represent, warrant and agree to the following:

2.1. Shipment. At the close of an auction in which You have a winning bidder, You agree to make the property available for prompt pickup and/or shipment.

2.2. Deposits. Public Surplus and Public Processing reserve the right to require an earnest money deposit prior to or during the listing on certain items at their sole discretion. Any such deposits will be retained and applied in their discretion.

2.3. Legal Compliance. You will comply with all applicable laws, statutes, ordinances and regulations regarding Your use of the Site and Services and the offer and sale of property. Offering property for sale with the intent not to complete the transaction, causing disruption to the sale process on the Site, and not completing transactions will be considered in most jurisdictions as fraud and may be prosecuted to the fullest extent of the law.

3. PAYMENT PROCESSING SERVICES

3.1. Scope of Payment Processing Services. In the event that You elect to have Us receive and process on Your behalf payments made by Buyers, You agree to the provisions set forth in this Agreement relating thereto. You understand and agree as follows:

   1. The Services do not include risk or fraud management, dispute management, collection agency services, or electronic checks;
   2. We will not perform Services with respect to transactions prohibited by the applicable laws or by bank, financial institution, or credit card association bylaws or rules;
   3. We will not provide Services with incomplete transaction information or if transaction
information cannot be confirmed;
4. We will only perform Services for domestic credit cards; and
5. You will not engage any other person to perform Services while we are providing them under
this Agreement.

3.2 Buyer Steps & Procedures for Payment. We will receive and process payments on Your behalf
only if Buyers make the payments by following the steps, instructions, and procedures included on the
Site and sent by e-mail to winning Buyers and in compliance with applicable laws and bank, financial
institution, or credit card association rules and procedures (including but not limited to PCI Security
Standards). Among other things, the payment for each successful bid must be made (a) to Public
Surplus or Public Processing, (b) by certain means (credit cards, wire transfers, etc.) specified on the
Site that vary based upon the amount of the payment, (c) in a timely manner as specified on the Site,
and (d) in a single payment by a single authorized means (no partial payments, multiple payments, or
payment by two different means allowed).

3.3. Sales Tax Processing. If You elect, We will under the conditions specified in this Agreement, agree
to receive sales tax payments made by Buyers and remit the sales tax payments to the applicable sales
tax authority in the state in which You are located (the "State"). You understand and agree as follows:

1. We will receive and remit to the State sales tax amounts paid by Buyers only if and to the extent
of the amount of sales tax with respect to a particular transaction is added to the price and other
payments otherwise payable by the Buyers.
2. We rely on You to inform us of the applicable sales tax rate and to provide us with Your
applicable tax identification number. You hereby authorize and direct Us to remit payment of
the sales tax amounts directly to the applicable sales tax authority in the State using the tax
identification number that You provide to Us.
3. Except for remitting funds we receive as payment for sales tax to the extent such funds exceed
the price and other payments due from the Buyers, We will have no responsibility or liability for
ensuring that payments are received and collected as required under all applicable laws or for
making payment to any governmental body or authority entitled to sales or use tax payments.
4. We will receive and process sales tax payments on Your behalf only if Buyers make the
payments by following the steps, instructions, and procedures included on the Site and sent by
e-mail to winning Buyers and in compliance with applicable laws and bank, financial
institution, or credit card association rules and procedures.

3.4. Liability and Risk of Loss for Failure to Pay, Charge Backs, and Other Items. You will bear
the burden and risk of any and all loss, liability, and exposure arising from any of the following
circumstances: (a) a Buyer does not make a payment, (b) a charge back occurs with respect to a
payment made, (c) a payment is not made in good funds, (d) a check does not clear, (e) a refund to a
Buyer is made, (f) fraud, deception, misrepresentation, or any other impropriety occurs with respect to
a transaction or a payment, (g) the action, inaction, refusal, or delay of any bank, financial institution,
or credit card association in processing any payment transaction, (h) the assessment of any fees, fines, or penalties by a bank, financial institution, or credit card association relating to a charge back or other matter, or (i) any other cause results in payment not being credited for a transaction involving Your property. Because Public Processing is merely processing payments for You, You understand that We assume no responsibility, burden, or risk of loss whatsoever for any of such circumstances. You expressly agree that We may offset the amounts arising from any such circumstances against other amounts payable by Us to You. You also agree that we may charge an extra processing fee if we make refunds relating to sales of Your property. You understand that the level of charge backs, fraud, or other circumstances may cause Us to decide to terminate rendering the Services under this Agreement.

3.5. Public Processing Not A Seller, Nor A Collection Agency; No Consignment. You acknowledge and agree that Public Processing does not (a) assume the role of seller of Your property, (b) make any representations or statements about Your property, (c) act as a collection agency to collect monies unpaid by Buyers, (d) take consignment of Your property, nor (e) undertake or assume any other role or responsibility not contemplated by this Agreement. You agree that You and Your employees and representatives will not make any statements or act in any way inconsistent with Public Processing’s limited role under this Agreement.

3.6. Public Processing Payment to You. Public Processing will keep records of all amounts received in good funds on Your behalf. Except as provided in paragraph 3.7, Public Processing will make payment to You monthly (unless otherwise agreed) of amounts received (net of fees, offsets, and any taxes). Unless otherwise agreed by Us, You agree that payment will only be made by Automated Clearing House (ACH) deposits to an account specified and properly maintained by You. You agree to provide promptly the authorizations needed for such ACH deposits and to be responsible and liable for any and all fees relating to such ACH deposits. You also agree to monitor the account and the deposits therein. You will bear the burden of any and all loss, liability, and risk of loss arising from any fraud, theft, mistake, or deception involving such ACH deposits, unless they arise from fraud, mistake, or deception by Us or our employees or agents.

3.7. Minimum Amount Required for Payment. Public Processing will make payment to You, as set forth above, of all amounts received (net of fees, offsets, and any taxes) on Your behalf, so long as the total amount received exceeds $100. We will not make payments to You of $100 or less. Where any amount or amounts received on Your behalf do not exceed $100, payment will be made to You upon receipt of additional funds that bring Your balance in excess of $100. Public Processing will own the interest on any balance held because it does not exceed $100. However, when You close Your account with Public Surplus and Us, any remaining balance will be paid to You, regardless of the minimum balance requirements stated above.

4. LIABILITY LIMITATIONS AND RELEASES

4.1. Absence of Liability. You will not hold Public Processing responsible for actions or inactions of
Buyers or other users, including the failure of a Buyer to take delivery or make payment for an item. You acknowledge that We and Public Surplus are not traditional auctioneers and We are not the Buyer of property sold through the Site. Instead, the Site provides a marketplace for users to offer, sell, and buy items of all kinds in a variety of pricing formats and venues. We are not involved in the actual transaction between You and Buyers. We have no control over and do not guarantee such things as the quality, safety, or legality of items advertised, the truth or accuracy of listings, the ability of Buyers to purchase and make payment for items, or the completion of a sale by You, even upon a successful bidding and acceptance process. Without limitation of the generality of the foregoing, We will not be liable for lost profits or any special, incidental, or consequential damages arising out of or in connection with the Site, the Services, or this Agreement.

4.2. Disclaimer of Warranties. THE SITE AND SERVICES, INCLUDING ALL CONTENT, FUNCTIONS, MATERIALS AND INFORMATION ON OR ACCESSED THROUGH THE SITE OR SERVICES, ARE PROVIDED ON AN "AS IS," "AS AVAILABLE" BASIS. PUBLIC PROCESSING DOES NOT WARRANT THAT THE SERVICES, FUNCTIONS, FEATURES OR CONTENT WILL BE FUNCTIONAL, TIMELY, SECURE, UNINTERRUPTED OR ERROR FREE, OR THAT DEFECTS WILL BE CORRECTED. PUBLIC PROCESSING MAKES NO WARRANTY THAT SALES WILL BE COMPLETED THROUGH THE SITE OR THAT THE SITE OR SERVICES WILL MEET YOUR REQUIREMENTS OR EXPECTATIONS, AND EXPRESSLY DISCLAIMS ANY WARRANTIES OR GUARANTEES THAT BY LISTING THE LISTED ASSETS, THE LISTED ASSETS WILL BE SOLD. PUBLIC PROCESSING MAKES NO WARRANTY OF ANY KIND REGARDING ANY LISTED ASSETS OR ANY TRANSACTIONS ENTERED INTO THROUGH THE SERVICES. PUBLIC PROCESSING EXPRESSLY DISCLAIMS ANY ENDORSEMENT OR WARRANTY OF ANY LISTED ASSETS SOLD ON OR THROUGH THE SITE OR THE SERVICES, AND ANY RESPONSIBILITY FOR ANY MISREPRESENTATIONS OR BREACHES COMMITTED BY ANY BUYER OR OTHER USER.

4.3. Interruption of Service. You understand and acknowledge that the Site and the Services may be unavailable unexpectedly.

4.4. Third Party Links. The Site may contain links to other websites or resources for Your convenience in locating related information and services. You acknowledge and agree that Public Processing is not responsible or liable for (i) the availability or accuracy of such sites or resources, or (ii) the content, advertising or products on or available from such sites or resources. The inclusion of any link on the Site does not imply that Public Processing endorses the linked site. You use the links at
Your own risk.

4.5. Release. If you have a dispute with a Buyer or any other Seller or user of the Site, You release Us (and our officers, directors, agents, subsidiaries, joint ventures and employees) from claims, demands and damages (actual and consequential) of every kind and nature, known and unknown, arising out of or in any way connected with such disputes. You will settle all disputes with other users of the Site without our involvement, and We will have no liability whatsoever arising from communications made or transactions effected through the Site. If you are a California resident, You waive California Civil Code §1542, which says: "A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor."

4.6. Indemnity. You agree to indemnify, defend and hold harmless Public Processing from and against any and all debts, liabilities, obligations, claims, suits, judgments, damages, expenses, including attorney's fees, and demands, made or incurred by any third party arising out of Your breach or alleged breach of this Agreement or Your violation or alleged violation of any applicable law or any rights of a third party.
