Executive Director

Jeff Hanson
Deputy Director

TO: State of Utah Division of Purchasing

From: Jeff Hanson, Deputy Director – Facilities, Utah Department of Veterans & Military Affairs

Date: December 18th, 2024

Subject: Request for emergency purchasing authorization

On December 11th, 2024, a 10" culinary water line located on the future site of the Northern Utah Veterans Cemetery in Washington Terrace sprung a major leak. Once notified of the problem and reviewing the situation, I took immediate action to find a vendor in the area that had the resources and time to initiate an emergency repair.

The vendor is Ross Weaver Construction. I am satisfied with their work and feel their charges are reasonable.

Utah Department of Veterans & Military Affairs Executive Director, Gary Harter, was notified of the situation and granted permission to move forward with the repair under the state emergency purchase policy.

If you have any questions, or require any additional information, please contact me at (801) 897-8762 or email jbhanson@utah.gov

Thank you.

Jeff Hanson
Deputy Director - Facilities
