NOTICE: eProcurement System Research and Demonstrations

The Division of Purchasing is starting to research alternative eProcurement providers in anticipation of the Jaggaer/Sciqwest contract expiring in June 2025. We will be having demonstrations with potential vendors in the coming months that you will be free to attend. This is being done as a courtesy so that you can see alternative systems in the event that your entity chooses to use a different system than what the Division of Purchasing implements.

We understand that many of you may have strong opinions about the current system and the change to a new system. We ask for your patience and understanding in this process as we evaluate new technology in this space.

We are going to start the demonstrations with vendors that have been awarded under the [NASPO eProcurement Solutions and Services Portfolio](#). Additional demonstrations may be held with other vendors. These demonstrations are currently scheduled for October 10 from 9AM-12PM and 1PM-3PM and October 11 from 9AM-12PM. If you would like to attend these demonstrations please email sciqwestadmin@utah.gov. These demonstrations will be recorded if you cannot attend.

Additionally, we have already begun discussion with Jaggaer about how we access our solicitation data in order to comply with records retention policies. More information will be coming about this as well.

If you have any questions please email sciqwestadmin@utah.gov.

Respectfully,

Division of Purchasing Jaggaer Administrative Team
